---------	---

I am a top-rated PHP,node.js developer and have more than 6 years' experience working on various client projects.

I developed most of website from scratch, and hence I know how to design the application architecture and write clean and simple code.

In addition, I have maintained legacy code and am very familiar with debugging and refactoring.

Your satisfaction and working software are my priority targets.

My skills include:

- * Laravel, PHP, React.js,next.js, Node.js
- * Moderate experience in API
- * Strong object-oriented design skills
- * Deep understanding of Reactjs patterns
- * Ability to write clean, well-factored UI code
- * A strong understanding of multi-threaded, asynchronous code
- * Proven debugging and performance testing skills
- * Experience in web service integration
- * Proficiency in Analytics, Push Notifications, Location and Map APIs

Over the last few years, I have developed an impressive portfolio of loyal clients including an online marketplace startup, exquisite art dealers, fashion accessories firms, lingerie companies, concierge firms, tech start-ups etc in the UK and USA.
