PROJECTS

ATOP (live TV) - OTT platform

- Spearheaded the project independently, taking charge of the entire backend development of the web app, APIs, and website.
- Assumed a critical role as the primary liaison with clients, maintaining regular communication and ensuring their satisfaction throughout the project lifecycle.

SuperChannel (vod) - OTT platform

- Took on the task of completely rewriting the project's APIs, resulting in improved functionality and performance. Managed the entire backend of the web app and APIs, ensuring seamless integration and smooth operation.
- Conducted thorough testing of the web app and applications before deployment, as well as overseeing the deployment process and conducting post-production testing.

findTv (live TV) - OTT platform

- Undertook a complete overhaul of the project's APIs and web app functionalities, resulting in enhanced performance and improved user experience.
- Demonstrated effective leadership and executed the project independently, ensuring its successful completion.

CERTIFICATES
