ANNEXURE – I

TECHNICAL SPECIFICATIONS

- | | |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Material of Sheet: | CRCA sheet |
| 2. Sheet thickness: | 3mm /2mm thickness for All Panels. |
| 3. Material treatment: | <p>Thorough chemical treatment with 7 tank process method for degreasing, derusting and phosphating powder coating shall not be less than 40 microns.</p> <p>SIEMENS GREY (RAL-7032) shade powder coating paint will be applied.</p> |
| 4. Bus bar: | <p>The bus bars will be insulated with PVC heat shrinkable sleeves and supported SMC/DMC at Suitable intervals so as to withstand dynamic stresses developed in the event of short circuit of 50ka (RMS) and will withstand following standard tests:-</p> <p>(a) Continuity tests
(b) No load operation test
(c) H.T Test (2kV) for one minute.
(d) Insulation resistance test.</p> |
| 6. Fault Level: | 35 KA |
| 7. Bus Bar Size: | As per BOQ |
| 8. Current Density: | 0.8A/Sq. mm. Current Density. |
| 9. Bus bar insulation | Heat Shrinkable Sleeves |
